2013

Compiled by

This yearly publication is a compilation of the various types of revenues that are available to the state of West Virginia in any given fiscal year from July 1 to June 30.

It consists of four types of revenues:

- General revenues collected in the form of taxes; such as personal income tax, corporate net income taxes, business and occupation taxes and consumer sales and use taxes.
- State Road Fund revenues such as motor fuel excise taxes and license taxes.
- Lottery Fund revenues generated from lottery activities such as the racetrack video lottery and table games, and miscellaneous games, power ball and scratch off tickets sold by retail licensees.
- Special revenue funds generated from agency collections for goods and services provided to public and other agencies, fees, permits and licenses, and federal funds such as grants and federal fund appropriations. This special revenue section also contains trust account funds such as pension funds.

The front sections of the book provide detailed information on general revenue, state road fund, and lottery collections. The back section of the book is a listing of special revenue funds. The special revenue section lists the funds in organization order. The investment balances are also given for funds that are authorized by statute to carry investments with either the state treasury or investment management board.

GENERAL REVENUE FUND

BUSINESS AND OCCUPATION PRIVILEGE TAX

First year enacted 1921

West Virginia Code Citation:

Chapter 11, Article 13, Sections 1 through 31 inclusive

Brief History of Business and Occupation Tax

Historically the Business and Occupation Tax applied to all persons, corporations, partnerships and associations engaged in business in West Virginia. The statutes imposing this tax have been amended various times since the inception. The first major change was in 1967, when the legislature amended the statute to include professional persons previously not subject to this tax. In 1971 banking and financial institutions were also made subject to the tax. However, in 1985, when the legislature restructured the state tax system, it repealed the Business and Occupation Tax as it applied to all businesses except for public service or utility businesses (11-13-2d) and the business of generating and producing electric power (11-13-2m). The repeal was effective on July 1, 1987. The business and occupation taxes were replaced with a system of severance, business franchise and corporate net income taxes. The business and occupation taxes at the local government levels were retained (8-13-5).

Current Summary

The current Business and Occupation Tax does not affect the number of businesses that it affected before the major statutory changes effective July 1, 1987. The current tax is levied on public utilities, gas storage operators, and electric power producers. The rates vary according to the type of activity. Electric power companies fall into different categories based upon whether the company is a producer or non producer, whether the sales are to customers at plant locations engaged in manufacturing businesses, whether the power sold is produced and generated inside or outside West Virginia, or if desulfurization systems have been installed in electric companies that produce or generate electricity. Natural gas storage utilities pay a rate based upon net dekatherms, natural gas utilities pay based upon gross income, as do water utilities, street and interurban and electrical railways and toll bridge companies.

Persons Required to File Returns and Pay Tax

Effective July 1, 1987, the following businesses are subject to the Business and Occupation Tax: (a) Public service businesses; (b) Utility businesses; (c) Businesses which generate and produce electrical power; (d) Businesses which sell electric power.

Exemptions to Business and Occupation Tax

1. Electricity generation that is not for profit, commercial use or sale.
2. Electric power related to selected manufacturing processes.
3. Retired or inactive generating units.
4. New generating units are taxable at 40% of official capacity.
5. Units relying on wind powered turbines are taxable at 12% of capacity.

Credits Allowed Against Business and Occupation Tax

1. Tax credit for business investment and jobs expansion (WV Code 11-13C-1 et seq.)
2. Tax credit for industrial expansion and industrial revitalization and eligible research and development projects (WV Code 11-13D-1 et seq.)
3. Tax credit for coal loading facilities (WV Code 11-13E-1 et seq.)
4. Tax credit for increased generation of electricity from coal (WV Code 11-13-2, 11-13-2m)
5. Tax credit for reducing electric and natural gas utility rates for low income residential customers (WV Code 11-13F-1 et seq.)

Allocation and Use:

Proceeds are deposited to the general revenue fund with the following exception:

Business and Occupation Taxes derived from the businesses producing or manufacturing synthetic fuel from coal are dedicated by statute to special revenue funds as follows: 1. The first \$ 4 million net tax each fiscal year to be deposited in the Mining and Reclamations Operations Fund (WV Code 22-3-32). 2. Monies collected from synthetic fuel in excess of \$ 4 million net each fiscal year are deposited to the Synthetic Fuel Producing Counties Grant Fund, not to exceed \$ 2,006,000.00 in the fiscal year. Ninety percent of these monies are to be used for infrastructure and ten percent for economic development. 3. Monies collected from synthetic fuel in excess of \$ 6,006,000.00 are to be deposited to the Synthetic Fuel Non Producing Counties Grant Fund in an amount not to exceed \$ 2 million in the fiscal year. This amount is divided equally to non producing counties. The non producing county commissions are to first use the money for Regional Jail and Correction Facility Authority and county jail expenses. And then for any legal public purposes as the county commission prescribes. Any amounts of Business and Occupation Taxes derived from synthetic fuel in excess of \$ 8,006,000.00 are deposited to the general revenue fund.

CONSUMER SALES TAX

First year enacted 1933

West Virginia Code Citation:

Chapter 11, Article 15, Sections 1 to 34 inclusive

Brief History of Consumer Sales Tax

The original Consumers Sales Tax was enacted in 1933 and has been amended numerous times. Over the years the rates, exemptions, and credits have changed. The statute has very specifically narrowed the definitions applying to consumer sales tax law.

Current Summary

The current Consumer Sales Tax applies to all retail sales of tangible personal property consummated within West Virginia and made for use or consumption or any other purpose except for resale in its original form without change or processing and also the furnishing of professional and personal services. The current rate is 6% of the retail price. Effective January 1, 2006, the sales tax on sales, purchases, and uses of food and food ingredients was reduced to 5%. The tax is collected from the purchaser by the retailer. The retailer then submits the tax to the West Virginia Department of Revenue. The law provides that the purchaser shall pay the tax to the seller. No compensation or profit is allowed for the collection of the tax.

During a special legislative session in November of 2006, the legislature passed a bill that lowered the sales tax on food as follows: 1) effective July 1, 2007, a rate of 4%; 2) effective July 1, 2008, a rate of 3%. The rate on vending machine sales, candy and soda remained at 6%.

During the 2011 legislative session the tax on food was decreased to 2% effective on December 31, 2011. A special session in August of 2011 further reduced the tax on food to 1% after June 30, 2012; the food tax was set to terminate on June 30, 2013. The changes in sales tax on food made during the special session of August 2011 were contingent upon balances in the state Rainy Day Fund/Revenue Shortfall Reserve Fund.

During the 2003 legislative session the Main Street Fairness Act of 2003 was passed. It is based upon a national effort by state governments to equalize the competition between sellers with retail stores within the state and out-of-state sellers that sell to West Virginia consumers from internet sites, telephone and mail order, and do not collect consumers sales and use tax. This legislation enables the tax commissioner to sign the national Streamlined Sales and Use Tax Agreement.

Legislation in 2013 expanded the definition of business presence in state to include any presence in state such as a customer call center.

Persons Required to File Returns and Pay Tax

All individuals, corporations, partnerships, associations or other groups engaged in the business of selling tangible property at retail or dispense certain selected services, excepting personal services and services provided by a corporation subject to the control of the public service commission. The tax is required by statute to be collected from the purchaser. The vendor is then responsible for remitting the tax collected to the department of revenue. The vendor cannot absorb the tax. If the vendor does not collect the tax, the vendor shall be personally liable for the amount not collected. If the purchaser refuses to pay the tax or does not present the vendor with a valid certificate of exemption, or uses a false certificate, or utilizes the merchandise purchased in such a manner as would precipitate the loss of the exemption, then the purchaser is personally liable for the amount of Consumer Sales Tax computed on the purchase. No profit shall accrue to any vendor as a result of collection of the tax, nor can any fee be charged by the vendor for collection and remitting the tax.

West Virginia Code Citation:

Chapter 11, Article 21, Sections 1- 96 inclusive

Chapter 11, Articles 13A through 13Z (as pertains to certain tax credits applicable to personal income tax liability)

Chapter 11, Article 13AA, Section 5 (as pertains to tax credit)

Brief History of West Virginia Personal Income Tax

The original Personal Income Tax was enacted in 1961, and has been amended numerous times. Over the years the rates, deductions, and exemptions have changed. The statute has been amended various times to include many tax credits, generally expiring within a defined period.

Current Summary

The West Virginia Personal Income Tax applies to all individuals who earn or receive income in this state in an amount exceeding \$10,000.00 of federally adjusted income (\$5,000.00 for married individuals filing separately). It is based upon a calendar year of January 1, to December 31. The low rate is 3% and the highest rate is 6 and 1 half percent and is encompassed in five brackets; the lowest bracket is \$10,000.00 and the highest is \$60,000.00. The returns mirror the federal returns and legislation is enacted annually to update the West Virginia Income Tax code to be in conformity with the federal tax code.

The 2007 session of the legislature passed legislation that eliminated the state personal income tax liability for taxpayers with modified federal adjusted gross income at or below the applicable federal poverty guideline based upon family size through a tax credit.

Persons Required to File Returns and Pay Tax

The tax, as its name implies, is a personal income tax upon each resident individual, estate or trust, or each nonresident individual, estate or trust whose income, whole or in part, was derived from West Virginia sources, except nonresidents whose income is taxed in resident state and which state provides similar exemptions to residents of the state of West Virginia.

Exemptions Personal Income Tax

As of January 1, 1987, the personal income tax exemption for an individual is \$2,000.00; it applies to the number of federal exemptions allowed on the federal income tax return for that same year. A surviving spouse is allowed one additional exemption of \$ 2,000.00 for the two taxable years beginning after the year of death of the deceased spouse.

Basis for Computation of Personal Income Tax

The adjusted gross income on the federal personal income tax is the basis for state income tax. However, there are modifications increasing and decreasing this basis.

Modifications that Increase federal adjusted gross income are as follows:

- (1) Interest income on obligations of any state other than this state or of a political subdivision in another state.
- (2) Interest or dividend income on obligations or securities of any authority, commission or instrumentality of the United States, which the laws of the United States exempt from federal income tax but not from state income taxes.
- (3) Deduction allowed when determining federal adjusted income that is not allowed as a deduction under WV Code (11-21-1 et seq.).
- (4) Interest on indebtedness incurred or continued to purchase or carry obligations or securities the income from which is exempt from tax by WV Code 11-21, to the extent of determining federal adjusted gross income.
- (5) Interest on a depository institution tax exempt savings certificate which is allowed as an exclusion from federal gross income under Section 128 of the Internal Revenue Code.
- (6) The amount of a lump sum distribution for which the taxpayer has elected under Section 402(e) of the Internal Revenue Code of 1986, as amended, to be separately taxed for federal income tax purposes.
- (7) Amounts withdrawn from a medical savings account established by or for an individual under WV Code (33-15-20) or WV Code (33-16-15) that are used for a purpose other than medical expenses.

Modifications that decrease federal adjusted gross income are as follows:

- (1) Interest income on obligations of the United States and its possessions to the extent includable in gross income for federal tax purposes.
- (2) Interest or dividend income on obligations or securities of any authority, commission or instrumentality of the United States or of the state of West Virginia to the extent includable in gross income for federal income tax purposes but exempt from state income taxes under the laws of the United States or of the State of West Virginia including federal interest or dividends paid to shareholders of a regulated investment company, under Section 852 of the Internal Revenue Code.
- (3) Any amount included in federal adjusted gross income for federal income tax purposes for the taxable year that is not included in federal adjusted gross income under WV Code (11-21-1 et seq.).

- (4) The amount of any refund or credit for overpayment of income taxes imposed by this state, or any other taxing jurisdiction, to the extent properly included in gross income for federal income tax purposes.

LIQUOR PROFITS

First year enacted 1955

West Virginia Code Citation:

Chapter 60, Articles 1-8 inclusive

Brief History

Sales of alcoholic liquor at both the wholesale and retail level were at the control of the state until the early 1990s. The state of West Virginia owned and operated the retail outlets. The Alcohol Beverage Control Commissioner (originally known as the West Virginia Liquor Control Commission) controlled the wholesale and retail sales of alcohol. The commissioner established retail stores and agencies throughout West Virginia, subject to local option election in the county or municipality.

Current Summary

The Alcohol Beverage Control Commissioner currently sells liquor on the wholesale market only. The legislature changed the statute during the 1990 session. Retail liquor is sold by retail licensees only. Potential licensees submit sealed competitive bids to the state retail liquor licensing board. Bids from West Virginia residents are given a five percent preference. The first licenses issued when the statute changed expired on July 1, 2000. In the fiscal year before July 1, 2000, the bidding process reopened and the new licenses were issued to the highest bidders. New licenses are issued on a ten year cycle.

In June 2009, the legislature changed some of the license classifications before the July 1, 2010 issuance of newly bid licenses. The new license categories are A and B. The A license is a freestanding liquor retail outlet and the B license is a mixed retail liquor outlet.

Before opening the retail license bidding procedure the Retail Liquor Licensing Board will have determined the minimum bids for each license based upon a review of the sales of that outlet or outlets. There are other factors to be considered in determining the minimum acceptable bids. The board also considers the revenues projected by the governor's official revenue estimates from liquor license renewal.

In addition to the initial bid amount paid to the Commissioner for the purchase of the retail license for ten years, there is an annual license fee required. Class A license fee is \$2,000.00 per annum and a Class B license fee is \$ 2,000.00 per annum.

Wine Liter Tax WV Code (60-8-4)

There is a tax of 26 and 406/1000 cents per liter. It is levied upon all wine sold by suppliers and distributors and all wine sold and sent to West Virginia adult residents from direct shippers, except wine sold to the commissioner.

Allocation and Use

Monies received by the commissioner are deposited into an operating fund. All receipts accruing to and available for the general revenue fund in excess of the requirements of the operating fund and the license fee and additional sales taxes imposed by WV Code Chapter 60 shall be remitted to the State Treasurer within fifteen days next after the end of the calendar month (WV Code 60-3-17).

The five percent of purchase sales tax imposed in WV Code, 60-3A-21, on the retail sale of liquor is distributed to the county or municipality where it is collected. The tax commissioner remits the money to the State Treasurer and the State Treasurer remits it quarterly to the counties and municipalities.

Wine liter taxes are deposited to the general revenue fund (WV Code 60-8-25). Wine license fees in the amount of the first \$200,000 are deposited into a special revolving fund, the Tax Commissioner's Wine Tax Administration Fund; remaining monies collected are deposited to the Alcohol Beverage Control Commissioner Wine License Special Fund.

RACING FEES

First year enacted 1933

West Virginia Code Citation:

Chapter 19, Article 23, Sections 1 -30

Current Summary

Racing fees are derived from a tax levied upon the privilege of holding pari-mutuel betting at horse race and dog race meetings. A license tax is imposed upon the operator of each track, which is collected on a per diem basis for those days on which races are run. Dog racing was enacted by an extraordinary session of the legislature and made effective February 1, 1976.

The 1994 legislature authorized the state Lottery Commission to implement and operate video lottery games at pari-mutuel racing facilities in West Virginia in accordance with the provisions of WV Code (29-22-1 through 28) and (29-22A-1 through 19). (Refer to lottery section of this book)

In 2007, the legislature authorized the state Lottery Commission to implement and operate table games at pari-mutuel racing facilities in West Virginia in accordance with the provisions of WV Code (29-22-1 through 28) and (29-22C-1 through 34). (Refer to lottery section of this book)

The video lottery games and table games are subject to local option election in the county in which the racetrack is located.

Persons Required to File Returns and Pay Tax

All persons conducting horse race and dog race meetings at which pari-mutuel betting is allowed must pay the tax. All persons operating horse race or dog race tracks must obtain licenses.

Basis of Tax

Racing associations are taxed according to the type of racing. Any racing association conducting thoroughbred racing at any horse racetrack in WV shall pay a daily license tax of \$250.00. Any racing association conducting harness racing at any horse racetrack in this state shall pay each day upon which harness races are run a daily tax of \$ 150.00. Any racing association conducting dog racing shall pay a daily license tax of \$150.00. In the event that thoroughbred racing, harness and dog racing are conducted at the same track on the same day by the same racing association, only one tax of \$250.00 per day is collected.

Licensees are permitted by WV Code (19-23-9) to deduct from the pari-mutuel pools on thoroughbred commission at a rate not to exceed 17.25% of the total pari-mutuel

pools for the day. The commissions are deposited according to specific code regulations pertaining to purses, special funds for racetrack employee benefits and pensions, breeding and development funds and distributions to counties and municipalities. The harness racing licensees are allowed to deduct commissions to a maximum of 17.50% of the total pari-mutuel pools for the day. The commission allowance for licensees of dog racing shall not exceed 16.31% of the pari-mutuel pools for the day. Specific statutes relate to televised racing days in WV Code (19-23-12b), and interstate live racing with wagering, WV Code (19-24-1-4).

The Lottery Racetrack Table Games Act WV Code (29-22C-1-34) governs the licenses and fees for tracks operating table games. There is a tax on the privilege of holding a license to operate WV Lottery table games. The tax is 35% of the gross receipts. It is collected and deposited into the WV Racetrack Table Games Fund. The use and allocation is governed by WV Code (29-22C-27). Initial license fee is \$1.5 million for the first year and annually \$2.5 million. These initial license fees are deposited to the Community-Based Service Fund to be appropriated by the legislature for use by the Bureau of Senior Services (WV Code 2-22C-27-(a) (2)).

Licenses and fees for the racetrack video lottery games are governed by WV Code (29-22A-1 through 1-29). License fees are \$1,000.00 annually. Gross terminal proceeds are sent to the Lottery Commission. The Lottery Commission allocates the money according to WV Code (29-22A-10). The racetrack is reimbursed for its actual costs and expenses in administering the video lottery. The remaining monies are distributed code, with percentages going to Tourism Promotion Fund, Development Office, Capitol Renovation and Improvement Fund, Worker's Compensation Debt Reduction Fund, and Veterans Memorial Fund.

Exemptions Allowed

Daily license tax does not apply to any local, county or state fair, horse show or agricultural or livestock exposition at which racing is conducted for six days or less.

Allocation and Use

Revenues from the daily license tax and pari-mutuel taxes are accumulated in a special revenue fund in the racing commission. After the operating expenses for the commission are paid from this fund, the excess is transferred to the general revenue fund.

See Lottery Fund section for racetrack table games and video lottery games revenues.

BEER TAX AND LICENSES

First Year Enacted 1933

West Virginia Code Citation:

Chapter 11, Article 16, Sections 1-29 inclusive

Brief History

The tax was originally levied in 1933. The rate was \$1.00 for each barrel (31 gallons), whether sold in barrels or other containers. In 1937, the tax was increased to one dollar and thirty seven and one half cents, \$ 1.375. In 1947, it was raised to \$ 2.75 per barrel.

In 1951, in order to aid in the payment of veterans' bonus bonds, the tax was raised to \$ 5.50 per barrel. License fees and bonding requirements were added to the statute. In 1966 the legislature repealed the dedication of the tax to the veterans' bonus bonds, but kept the rate at \$5.50 per barrel.

Current Summary

This tax is currently authorized by Chapter 11, Article 16, of the West Virginia Code. It is referred to as the "Nonintoxicating Beer Act". The current statute was written in 1986. "Nonintoxicating beer" is defined by the code to mean all cereal malt beverages or products of the brewing industry commonly referred to as beer, lager beer, ale and all other mixtures and preparations produced by the brewing industry, including malt coolers and beverages containing at least one half of one percent alcohol by volume, but not more than nine and six-tenths percent of alcohol by weight, or twelve percent by volume, whichever is greater, all of which are hereby declared to be nonintoxicating. A distinction is specifically made in the code between liquors as regulated by Chapter 60, Article 1 and "nonintoxicating beers" as regulated by Chapter 11, Article 16; there are no common characteristics for the two classifications of regulated beverages.

The source of revenue is from the sale of licenses for the sale, distribution, manufacturing, bottling, processing and serving of nonintoxicating beer. The other source is a barrel tax on each thirty one gallons of beer manufactured.

Persons Required to File Returns and Pay Tax

License tax is payable by any persons selling, serving, delivering or otherwise dispensing nonintoxicating beer; and persons manufacturing, processing for sale or bottling nonintoxicating beer. There are two types of licenses. Class A licenses are for establishments selling nonintoxicating beers to be consumed on the premises and for social, fraternal and private clubs operating as nonprofit. Class B licenses are for establishments selling at retail for consumption away from the selling premises, such

as grocery stores, party supply stores, caterers, and delicatessens; these sales are sealed containers only.

Barrel tax is payable by brewers manufacturing or producing nonintoxicating beer within this state for sale within the state; and by distributors who are the original consignees of nonintoxicating beer manufactured or produced outside of this state or who bring nonintoxicating beer into this state.

TOBACCO PRODUCTS EXCISE TAX

First year enacted 1947

Formerly known as the Cigarette Tax; renamed on April 13, 2001.

West Virginia Code Citation:

Chapter 11, Article 17, Sections 1-23

Brief History

The cigarette tax act was originally enacted by the 1947 legislature. It imposed a tax of one half cent upon the sale of ten cigarettes.

The code was amended many times with rates being raised in small increments and portions of the proceeds being dedicated to veterans' bonds and the general school fund. In 1966 the legislature repealed dedication to the veterans' bonds. In 1978 the legislature repealed dedication to the school fund.

The rate has been five cents per package of twenty, twelve cents per package of twenty and in 1978 it was raised to seventeen cents per twenty. The rate did not increase again until the 2003 legislative session. It was raised to fifty five cents per package of twenty.

In 2001, the tax was amended to include all tobacco products, not just cigarettes. Other tobacco products are snuff and chewing tobacco and tobacco products meant to be consumed by means other than smoking. Other products also include pipe tobacco and cigars. These products are taxed at a rate of 7% of the wholesale price.

The levying of any tobacco products tax by municipalities or other governmental subdivisions is expressly prohibited by WV code (11-17-4a).

Persons Required to Pay Tax and File Returns

The cigarette tax is paid by the purchase of stamps. The tax imposed upon other tobacco products is paid using an invoice method prescribed by the Tax Commissioner.

The stamp or impression is affixed to the cigarette package. The stamps or impressions are purchased from the Tax Commissioner by the wholesaler.

On or before the fifteenth day of each month, manufacturers, importers, common carriers, wholesalers, sub-jobbers, retail dealers and agents or vending machine operators shall when required by the commissioner, file a report covering the business transacted in the previous month providing any information the commissioner determines necessary for the assessment of taxes. The amount of tax due is submitted with the return. Returns must be filed even though no business may have been conducted or no tax is due.

Rates

Current rates are: (1) Fifty -five cents a package of twenty cigarettes. (2) Seven percent of the wholesale price for other tobacco products.

Allocation and Use

To be deposited to the general revenue fund of the state of West Virginia and appropriated by the legislature.

ESTATE AND INHERITANCE TAX

First year enacted 1904

West Virginia Code Citation

Chapter 11, Article 11, Sections 1 to 43 inclusive

Brief History

West Virginia had an estate tax until 1985. The code was amended and West Virginia imposed a “pick-up” tax on resident and nonresident estates with property in West Virginia. An estate was required to file a “pick-up” tax return when the estate was required to file a federal estate return and was allowed a credit against its federal tax liability for payment of West Virginia estate taxes.

The amount of the tax was the amount of the credit allowed for payment of federal estate taxes. The federal estate tax credit was apportioned among states when the estate contained property involving two or more states.

The federal government eliminated the state tax credit for deaths on or after January 1, 2005. This effectively eliminated the West Virginia Estate Tax.

First year enacted 1939

This tax was also known as the Charter Tax

WV Code Chapter 11, Article 12C, Sections 1-12 (Repealed)

Current Summary

Effective July 1, 2008, the Corporate License Tax was repealed. It was a license tax upon the corporate charter for the fiscal year from July 1, to June 30. The tax was based upon the corporation's authorized capital stock. It was required to be paid annually even if not business was transacted.

It is not imposed upon consumers who are subject to the consumer sales and service tax. It is imposed upon the use of the tangible personal property or services that are furnished or delivered to consumers or users within West Virginia. It is six percent of the purchase price of the property or service. The rate has been six percent since 1988.

Persons Required to File Returns and Pay Tax

All out-of-state retailers who maintain a place of business located in this state must collect the use tax on all taxable sales of tangible personal property or services made for use by customers located in West Virginia, regardless of the fact that the entire transaction may be handled through the mail and the merchandise is shipped by the out-of-state vendor directly to the purchaser.

The tax must also be collected by any other out-of-state retailers or vendors who do not have a retail store or place of business within West Virginia.

Any person who uses any tangible personal property or services upon which the tax has not been paid either to the retailer or tax commissioner shall be personally liable for the use tax.

Basis and Rate of Tax

The basis is the purchase price of the personal property or service. The base is subject to a rate of six percent.

Exemptions Allowed

- All articles of personal property and custom software brought into the state by a nonresident individual for personal enjoyment while temporarily in this state, or while passing through the state except gasoline and special fuel.

- Tangible personal property, custom software or services, the gross receipts from the sale of which are exempt from the sales tax by the terms of WV Code (11-15-1 et seq.)
- Tangible personal property, custom software or services, the gross receipts from the sale of which are required to be included in the consumer sales tax imposed by WV Code (11-15-1 et seq.)
- Tangible personal property, custom software or services, the sale of which in this state is not subject to the West Virginia consumers sales tax.
- Fifty percent of the measure of tax on mobile homes utilized by the owners as their principal year-round residence and dwelling.

Credits Use Tax

There is a credit against the use tax imposed by WV Code (11-15A-10a) on the use of a particular item of tangible personal property, custom software or service equal to the amount, if any, of sales tax lawfully paid to another state for the purchase of that property or service.

Allocation and Use

Use tax is deposited in the general revenue fund and appropriated by the legislature.

General Provisions

Property taxes or ad valorem taxes are levied upon all real and personal property. It is one of the oldest forms of taxation. Through history, ad valorem taxes were the chief source of revenue for governments. The constitution of the state has limited and specified law on ad valorem taxes (WV Constitution, Article X). Amendments allow voter ratification in each county for increases above the maximum rate set in law. State government cannot increase the rate.

Revenues derived from property taxes accrue to the counties, school, state and municipalities. Rates vary among the counties as do the percentages of assessed appraised valuations.

Real estate is assessed at the place of location, and personal property is assessed at the domicile of the owner, but goods, wares and chattels may be assessed in the district where they are located on the assessment date. Chattel interests in real and personal property are now deemed to be tangible personal property and are taxed as such.

There are special assessment methods for valuation applied to certain manufacturing production property and capital additions to that property. Natural resources are also valued by a special assessment method. The state tax commissioner is responsible for these valuations.

There are also special assessment procedures for managed timberland that is used for commercial production (WV Code 11-1C-11a).

Public service utilities send their returns to the state tax commissioner. The property of such companies is apportioned throughout the several counties in which it operates and is then subdivided into the municipal districts within the county. The state auditor computes the taxes, based upon the assessed valuation made by the board of public works and by using the tax levies as approved by the levying bodies in each county. Taxes are collected by the state auditor and distributed to the counties.

Basis and Rate of Tax

Each county assessor is responsible for assessing real and personal property in the county. The real properties are re evaluated every three years. The assessed valuations are 60% of the actual market value of the property.

Maximum Rates: Class I (intangible personal property, exempted in 2003; agriculture products, and tangible property used in agricultural production) Fifty Cents per \$100.00 of valuation. Class II (all property owned, used and occupied by the owner for residential purposes, all farm lands) One Dollars per \$100.00 of valuation. Class III (All real and personal property outside of municipalities, exclusive of Classes I and II) One Dollar and Fifty Cents per \$100.00 of valuation. Class IV (All real and personal property inside of municipalities, exclusive of Classes I and Class II) Two Dollars per \$ 100.00 of valuation.

General Provisions

The state of West Virginia collects a tax from every insurance company transacting business in the state based upon gross premiums from business in West Virginia, with certain exceptions. Those exceptions include health care corporations, health maintenance organizations, fraternal benefit services and farmer's mutual fire insurance companies.

The main premium tax paid is equal to three percent of the gross annual premiums collected less any allowable adjustments. Two percent of the premium tax is levied in WV Code Chapter 33, Article 3, Section 14; an additional one percent is levied in WV Code Chapter 33, Article 3, Section 14a.

An additional premium tax of one percent of taxable premiums is levied on fire insurance and casualty insurance policies (WV Code 33-3-14d). The purpose of this additional tax is to provide revenue for municipal policemen's and firemen's pension and relief funds and the Teachers Retirement System reserve fund and for volunteer and part volunteer fire companies and departments.

There is a surcharge not classified as an additional premium tax, imposed on the policyholder of any fire insurance policy or casualty insurance policy issued in the state. It is equal to 0.55 percent of the gross premium paid (WV Code 33-3-33(3)). The surcharge is collected by the insurer and is remitted to the insurance commissioner.

The insurance commissioner also collects annual license fees from persons acting as insurers and transacting insurance in West Virginia. This includes broker's and solicitor's licenses.

In addition to license fees, the commissioner is directed to impose fees for: receiving and filing reports; valuation of policies of companies organized in this state and other states; and for each licensed agent.

An annuity tax is imposed based upon the gross amount of annuity considerations collected and received by life insurers on business transacted in this state. The tax is calculated on the gross annuities received less the annuity considerations returned and less termination allowances on group contracts. The result is taxed at one percent. (WV Code 33-3-16)

There is also a minimum annual tax imposed upon insurers. Each licensed insurer must pay a minimum of \$200.00 yearly for taxes imposed in West Virginia Code Chapter 33, Article 3.

General Provisions

Certain officers and departments of the state are required to collect fees for services and goods provided to other state departments and the private sector. Some of the departmental collections are dedicated specifically in statute to certain special revenue funds. Some of these fees not retained by the specific department authorized to collect them are to be deposited with the state treasurer for deposit in the general revenue fund. The majority of these collections are derived from fees charged by the various constitutional officers: auditor's office, secretary of state's office, clerk of the Supreme Court and attorney general.

CORPORATION NET INCOME TAX

First year enacted 1967

West Virginia Code Citation:

Chapter 11, Article 24, Sections 1 through 43 inclusive

General Provisions

The West Virginia corporation net income tax adopted many provisions of the laws of the United States internal revenue code relating to the determination of income for federal tax purposes. The purpose of the adoption of these provisions was to simplify preparation of state corporation net income tax returns for taxpayers, improve enforcement of state corporation income tax through better use of information obtained from federal income tax audits, and to aid interpretation of the state corporations net income tax law through increased use of federal judicial and administrative law determinations and precedents. Annually the state corporation net income tax is updated to reflect changes in the federal tax code.

In a special legislative session in November 2006, the rate was lowered to 8.75% effective for taxable years after January 1, 2007. In the 2008 session the rate was revised downward as follows: 1) Taxable periods beginning on or after January 1, 2009, the tax was decreased to 8.5%. 2) Taxable periods beginning on or after January 1, 2012 it is decreased to 7.75%. 3) Taxable periods beginning on or after January 1, 2013 it is decreased to 7.0%. 4) Taxable periods beginning on or after January 1, 2014 it is decreased to 6.5%. However, the decreases for periods beginning on or after January 1, 2012 through January 1, 2014, are dependent upon the balances in the Revenue Shortfall Reserve funds.

Persons Required to File Returns and Pay Tax

All domestic or foreign corporations engaging in business in this state or deriving income from property, activity or other sources must file a return and pay the tax if applicable. Certain types of corporations are specifically exempt.

Basis of Tax

The tax is based upon the taxable income as defined by the laws of the United States for federal income tax purposes with certain adjustments to determine its West Virginia taxable income. Provisions are also made for corporations having income from business activity which is taxable outside of West Virginia, in order that its West Virginia taxable income shall be apportioned to its actual business activity within West Virginia.

Financial organizations with their commercial domicile in West Virginia may not apportion their business income, but shall report all net income to West Virginia without

apportionment, but shall be allowed a credit for taxes paid to another state. Amendments to the apportionment laws in 2007, allowed corporations engaged in a unitary business to apportion West Virginia taxable income to an allocable share of the combined net income of the group. Corporations which are subject to taxation in West Virginia and one or more other states use an apportionment formula to determine taxable income. The formula weighs three factors: payroll, sales and property. Sales carry 50% of the formula, property 25% and payroll 25%. Income that does not relate to the taxpayers line of business is not apportioned (rents, royalties, patents, capital gains and losses from sales of property in West Virginia, interest and dividends).

Motor carriers and financial corporations have specific apportionment rules. These rules relate to mileage in the case of motor carriers, and gross receipts in the case of financial institutions.

- Corporations which by reason of their purposes or activities are exempt from federal income tax

- The amount of any net operating loss deduction taken for federal income tax purposes under Section 172 of the IRS Code of 1986
- Any amounts derived from net operating losses that are without the United States
- The amount of foreign taxes deducted in determining federal adjusted gross income

Chapter 11, Article 13A, Sections 1 through 24 inclusive (Entitled Severance and Business Privilege Tax Act)

Chapter 31, Article 15A, Section 16

The severance tax was enacted when the West Virginia business tax structure was revised during the 1985 legislative session. The Business and Occupation tax was narrowed in scope from a tax on all business gross receipts to apply to utility and power producing businesses, gas storage and synthetic fuel producers. The severance tax was enacted to apply to businesses that sever or extract natural resources.

Persons Required to File Return and Pay Tax

Any individual, partnership, joint venture, association, corporation, receiver, trustee, guardian, executor, administrator, fiduciary or representative of any kind engaged in the business of severing, or processing (or both) of natural resources in this state for sale or use.

Severance tax rates

Item	Rate on gross receipts
Coal	5.0 and 2.0 % (based on seam depth) If seam depth is 37-45 inches tax is 2%; on seam depth less than 37 inches tax is 5%.
Limestone, sand stone, quarried or mined	5.0 %
Oil	5.0%
Natural gas	5.0%
Coal bed Methane	5.0%
Sand, gravel, or mineral not mined or quarried	5.0%
Timber	1.22% (temporary suspension tax year 2010, 2011, 2012)

The above rates for coal include an additional severance tax that is collected for the counties and municipalities by the state tax department. The local government rate is 35 cents per \$100. 00.

There is a minimum coal severance tax imposed by Chapter 11, Article 12B. That minimum severance tax is seventy-five cents per ton. Credit is allowed against the coal severance tax liability calculated in Chapter 11, Article 13, Sections 1-18. Credit is not allowed against the portion of severance tax imposed by counties and municipalities.

Credits Applied to Severance Tax

Taxpayers subject to severance and business privilege taxes are allowed an annual credit of \$ 500.00. (WV Code 11-13A-10)

Allocation and Use

Unless otherwise noted as below, proceeds are deposited in the general revenue fund.

Ten percent of the collections of oil and gas severance tax are distributed to the counties. The monies are allocated according to the formula in WV Code 11-13A-5a.

Timber severance taxes are dedicated to the Division of Forestry, except for timber severance collected under WV Code 11-13V-4; this amount is deposited to the credit of the Workers' Compensation Debt Reduction Act.

Taxes collected for coal bed methane severance are allocated at \$ 4 million per year for infrastructure. Allocated amounts are paid to county commissions or county development authorities.

Taxes collected on privilege of extracting and recovering material from refuse, gob piles and other sources to produce coal are distributed to waste coal producing counties.

The additional tax collected on coal severance is allocated to the counties and municipalities according to statute. It is allocated according to WV Code 11-13A-6; to producing and non producing counties.

BUSINESS FRANCHISE TAX

First Year Enacted 1987

WV Code Citation:

Chapter 11, Article 23, Sections 1 through 28 inclusive

General Summary

The business franchise tax was enacted during the restructuring of the state tax system in 1985, when the legislature repealed the business and occupation tax as it applied to non utility and non power companies. The business and franchise tax is a tax upon the privilege of doing business in West Virginia. It is not an ad valorem tax imposed on the property of corporations and partnerships in West Virginia. The tax base is the capital of the corporation (which is calculated as the average value of the common and preferred stock, the amount of paid in or capital surplus, the amount of appropriated and non appropriated retained earnings, less the cost of treasury stock). Partnerships are taxed upon the average of the beginning and ending partners' capital balances.

Business franchise and corporate net income tax are combined in one return.

Legislation in 2006 allowed for the gradual reduction in business franchise tax rates over a period of several years until it is repealed for taxable years beginning on or after January 1, 2015.

Persons Required to File Returns and Pay Tax

Every domestic corporation, every corporation having its commercial domicile in West Virginia, every foreign or domestic corporation owning or leasing real or tangible personal property located in the state or doing business in the state is required to file and pay tax. Business franchise tax is also imposed on partnerships owning or leasing real or tangible property in West Virginia or doing business in the state.

Rate of Business Franchise Tax

Business Franchise tax rates are being gradually reduced on an annual basis as follows:

Taxable Year Beginning	Rate
January 1, 2007	Greater of \$50.00 or .55% of tax base
January 1, 2009	Greater of \$50.00 or .48% of tax base
January 1, 2010	Greater of \$50.00 or .41% of tax base
January 1, 2011	Greater of \$50.00 or .34% of tax base
January 1, 2012	Greater of \$50.00 or .27% of tax base
January 1, 2013	Greater of \$50.00 or .21% of tax base
January 1, 2014	Greater of \$50.00 or .10% of tax base
January 1, 2015	No tax

Chapter 11, Article 13B, Sections 1 through 19 inclusive

Current Summary

The telecommunications tax was repealed on March 7, 2012 by the West Virginia Legislature.

History

Telecommunications tax is levied at four percent. It is levied upon the gross income from the provision of telecommunication services. The gross income for purposes of this tax does not include revenues from network access or similar devices provided to end users, other telephone companies or communication carriers. Income originating from services which have been determined by the West Virginia Public Service Commission as subject to competition is excluded from the taxable base. This competition clause has limited the tax basis to the provision of local services.

In 2010, the legislature commissioned a study to change the telecommunications tax provisions to account for modern business models, operational structures, technologies and fundamental economics of business telecommunications. This study was required by West Virginia Code Chapter 11, Article 13B, Section 19.

Persons Required to Pay Tax and File Returns

Imposed upon every telecommunications business selling or furnishing telegraph, telephone or other telecommunications services. Tax is imposed unless the West Virginia Public Service Commission determines exemption from tax due to competition.

Basis of Tax

Gross income received from the provision of local exchange or long distance voice or data communications services, but shall not include gross income from the provision of network access, billing or similar services provided to end users, other telephone companies or communication carriers. Those communication activities which cross state boundaries are apportioned to West Virginia based on the relative number of weighted communication channel pathways.

Exemptions

Telecommunications services provided by municipalities or any political subdivision of West Virginia are exempt.

Rate

Telecommunications tax is 4 percent of taxable gross income.

Credits

The following credits are allowed against the telecommunications tax:

Tax credit for business investment and jobs expansion

Tax credit for eligible research and development projects

Tax credit for coal-loading facilities

Tax credit for reducing telephone utility rates for certain low-income customers

Allocation and Use

Deposited to the general revenue fund and appropriated by the legislature for general governmental purposes.

Department of Health and Human Resources

Department of Military Affairs and Public Safety

Current Summary

Institutional collections are no longer a component of the general revenue fund. The Department of Health and Human Services deposits institutional revenues into one account entitled, "hospital services revenue account". Any fees received by a facility owned and operated by the Department of Health and Human Services, from any source including federal and state government, third party payers, or personal payment is deposited for the benefit of the institutions. All disproportionate share payments received in the hospital services revenue account are transferred by intergovernmental transfer to the medical services trust fund.

Collections from correctional facilities are deposited to individual institution special revenue funds for the benefit of those facilities.

As of January 1, 1982, the institutional fees were no longer deposited into the general revenue fund to be appropriated for general governmental purposes. (WV Code 16-1-10-13)

MOTOR VEHICLES PRIVILEGE TAX

As of July 1, 2008, this tax is known as the 5% consumer sales tax on sale of motor vehicles. The tax has remained dedicated to the state road fund.

Administration

Commissioner of Motor Vehicles

Current Summary

During the 2007 legislative session, the privilege tax on motor vehicles was changed to a 5% consumer sales tax on vehicles newly titled in West Virginia. Provided in the legislation was an exemption for new residents moving to West Virginia and transferring a vehicle they had previously titled in another state. The bill required that effective on July 1, 2008, in order for the new resident to take advantage of this exemption, they must establish residency and then title their vehicle within thirty days.

General Provisions

A sales tax is imposed upon certification of title of a vehicle in the amount of the 5% of the value of that motor vehicle at the time of certification. There are three methods to determine the basis for the sales tax depending upon the circumstances of the acquisition:

If the vehicle is new, the actual purchase price is the basis.

If the vehicle is second hand, the present market value at the time of transfer or purchase is the value of the vehicle for the purpose of the tax.

If the vehicle is a gift, the present market value of the vehicle at the time of the gift is the basis for the tax. If the gift is between husband and wife or parents and children, the present value is not taxed if the vehicle was previously titled in West Virginia.

Exemptions

The following transactions are exempt from the 5% sales tax on the titling of vehicles:

- If the vehicle is obtained through inheritance and the tax has been paid to the state of West Virginia by the previous owner
- A person is not required to pay the tax twice if the vehicle has been transferred to another person and then transferred back to the person; a five dollar fee is charged to re-title the vehicle
- The tax does not apply to the titling of vehicles rented on a daily or monthly basis by West Virginia businesses. MOTOR FUEL EXCISE TAX

Enacted in 2003; Effective January 2004

(This tax was originally known as the Gasoline Excise Tax and Special Fuel Tax. It was enacted in 1923. The West Virginia Code Chapter 11, Article 14, Sections 1 through 30 and Chapter 11, Articles 15 and 15A, Sections 18 and 13 were repealed in the 2003 legislative session.)

WV Code:

Chapter 11, Article 14C, Sections 1-47 Motor Fuel Excise Tax (flat rate portion)

Chapter 11, Article 15, Section 18b Tax on Motor Fuel (variable rate portion; consumers' sales tax portion)

Chapter 11, Article 15A, Section 13a Tax on Motor Fuel (variable rate portion: use tax portion)

Administration

West Virginia State Tax Commissioner

General Provisions

The Motor Fuel Tax is composed of two components. There is an excise tax levied on all motor fuel composed of a flat tax equal to twenty and one half cents per gallon plus a variable component. The variable component consists of the consumer sales and service tax portion or the use tax portion which is based upon a 5% tax on the average wholesale price of a gallon of fuel provided that the average wholesale price cannot be below ninety seven cents a gallon. A special legislative session in November 2009 enacted senate bill 4004. This legislation changed the wholesale price to be no less than \$2.34 per invoiced gallon effective January 1, 2010. (11-14C-5-b (2))

The flat rate component is set at twenty and one half cents per gallon.

The tax is imposed at the time the motor fuel is imported into this state, other than by a bulk transfer. It is measured by invoiced gallons received outside of West Virginia at a refinery, terminal or bulk plant for delivery to a destination in West Virginia.

The tax is also imposed on invoiced gallons of motor fuel removed other than by bulk transfer (bulk transfer is defined as any transfer of motor fuel from one location to another by pipeline tender or marine delivery within a bulk transfer/terminal system):

- From the bulk transfer/terminal in this state;
- From the bulk transfer/terminal system outside this state for delivery to a location in West Virginia represented on the shipping papers;
- Upon the sale or transfer in a terminal or refinery in West Virginia to any person not holding a supplier's license and payable by the person selling or transferring the motor fuel;

- This tax does not apply to motor fuel imported into the state in the motor fuel supply tank or tanks of a motor vehicle (Motor Carrier Road Tax may apply);
- This tax applies to motor fuels blended in West Virginia by a calculation that deducts the quantity used in blending that has been previously taxed prior to the blending.

Voters in the state of West Virginia approved a constitutional amendment on November 6, 1984, which allowed for the creation of a state operated lottery. In April of 1985, the legislature voted to pass the State Lottery Act, which was then signed by the governor in May of 1985. The first lottery tickets were sold on January 1, 1986.

The State Lottery Act created a special fund in the West Virginia Treasury for lottery monies. It was formed to assist the state in educational and cultural funding. The act also created a seven member lottery commission to be appointed by the governor. Provisions were made for a governor appointed director to administer the day to day operations of the lottery office. Only lottery commission approved licensees are permitted to sale lottery tickets. The licenses are issued for one year and are subject to numerous regulations and restrictions.

The first game issued was the preprinted ticket instant winner type lottery. The commission was granted the power to promulgate rules and regulations specifying the types of lottery games allowed. Some of the regulations were as follows: Lottery games utilizing the results of any amateur or professional sporting events, dog or horse race were expressly prohibited. Video lottery game systems must include a central site system of monitoring the terminals using an on line or dial up inquiry. No lottery games can use machines which dispense currency. If the lottery game uses a ticket, each ticket must bear a one of a kind number. Certain games which use an electronic computer and video screen to operate a lottery game and communicate the results, but do not use an interactive electronic terminal device allowing input by the player, may only be used in private clubs. Selection of the winner of the game must be based upon chance.

Beginning in September of 2000, the commission established an instant lottery scratch-off games designated as the veterans' benefit game. All of the profits received from this game are deposited into the veterans' lottery fund and are used to make the payments of interest and principal for revenue bonds issued for the construction of an initial veterans' skilled nursing facility.

In 2007, table games were legalized by adding a new code section, Chapter 29, Article 22C, Sections 1-34. The games are to be conducted at licensed race tracks, subject to local option election in the county in which pari-mutuel wagers are received at a race track licensed under Chapter 19, Article 23.

In 2009, table games were legalized at historic resort hotels by adding a new code section, Chapter 29, Article 25, Sections 1-38, entitled, "Authorized Gaming Facility".

State Lottery Distribution of Monies

A special revenue fund was created in the state treasury and entitled the "State Lottery Fund". All revenues received from the sale of lottery tickets, materials and games shall be deposited in the fund. Any revenues derived from investment of these funds, any gifts, donations or grants are also deposited to this account along with the initial appropriation to create the lottery.

The distribution of the funds is as follows: A minimum annual average of forty five percent of the gross amount received from each lottery shall be allocated and disbursed as prizes. Not more than fifteen percent of the gross amount received from each lottery may be allocated and disbursed to provide for the fund operation and administration expenses, however for a limited time from January 2002 and until June 30, 2003, that percentage increased to seventeen percent.

Net profit shall be determined by subtracting the fifteen to seventeen percent administration costs and forty five percent prize costs from the aggregate gross amount received from all games. In the event that this creates a surplus, two hundred fifty thousand dollars can be kept as retained earnings by the lottery.

The \$ 250,000.00 limit on retained earnings by the lottery was amended on June 14, 2006, by House Bill 106 to allow the lottery to retain \$ 20 million yearly for the fiscal years ended June 2006, 2007, 2008, 2009, 2010 and 2011. These amounts were transferred to the Revenue Center Construction Fund. The excess of these construction amounts were returned to the lottery fund in June 2010.

The net profit is to be allocated as follows:

Debt relating to the School Building Authority: On or before the twenty eighth day of each month, as long as revenue bonds or refunding bonds are outstanding, the lottery director shall allocate to the school building debt service fund (WV Code 18-9d-6) an amount equal to one tenth of the projected annual principal, interest and coverage ratio requirements on any and all bonds issued on or after April 1, 1994. The monthly amount allocated cannot exceed eighteen million dollars. If these funds are not available, the School Building Authority may be granted a lien against lottery net profits not to exceed twenty seven million annually.

Debt relating to the Education, Arts, Sciences and Tourism Debt Service Fund: On or before the twenty eighth day of the month, as long as revenue bonds or refunding bonds are outstanding, the lottery director shall allocate to the Education, Arts, Sciences and Tourism Debt Service Fund (WV Code 5-6-11a), an amount equal to one tenth of the projected annual principal, interest and coverage ratio requirements on any and all bonds issued after April 1, 1996. The monthly amount allocated cannot exceed

one million dollars the annual amount cannot exceed ten million dollars. If these funds are not available, a second priority lien (after the School Building Authority) is placed upon the lottery net profits, not to exceed fifteen million dollars annually.

The remaining net profits are allocated as appropriated by the legislature in such proportions as it considers beneficial to the state:

Lottery Education Fund – Appropriated to public education and higher education programs.

School Construction Fund – Appropriated to provide additional improvements or improvement bonds.

Lottery Senior Citizens Fund – Appropriated to provide senior medical care programs and other senior citizen programs.

Division of Natural Resources – Appropriated to pay for development, maintenance and construction of recreational facilities, funding or refunding of natural resources bonds and payment of advertising and marketing expenses for development of tourism in the state.

West Virginia Lottery Racetrack Table Games- Distribution of Monies

A special revenue fund was created in the state treasury known as the West Virginia Lottery Racetrack Table Games Fund and all taxes collected shall be deposited into this fund, including interest earned on those collections.

The initial license fee for table games is \$1.5 million. The yearly renewal license is \$2.5 million. These license fees are deposited in a Community-Based Service Fund in the state treasury. The monies in this fund are expended by the Bureau of Senior Services upon appropriation by the legislature for the purpose of enabling aged and disabled citizens of West Virginia to maintain their residency in the community with the provision of home and community-based services.

From the gross amounts deposited into the Racetrack Table Games Fund, the lottery commission shall distribute or expend as follows:

For the initial year of table games licensing:

- Retain an amount for administrative expenses of the commission not more than 3 percent of the gross income for each licensed table games track.
- Transfer two and one half percent of adjusted gross receipts from all thoroughbred racetracks with table games to special funds established by each thoroughbred racetrack table games licensee for the payment of regular thoroughbred purses. The amount is to be divided equally between the special funds of each thoroughbred track table games licensee. Two and one half of adjusted gross receipts from all the greyhound racetracks with table games will be transferred to special funds established by each greyhound racetrack table games licensee for the payment of regular greyhound purses. The amount is to be divided equally among the funds of the greyhound track table licensees.
- Transfer two percent of the adjusted gross receipt from all licensed racetracks to the Thoroughbred Development Fund (Chapter 19, Article 23, Section 13-b) and the Greyhound Breeding Development Fund (Chapter 19, Article 23, Section 10). Monies shall be prorated among the development funds for each racetrack table games licensee based upon relative adjusted receipts from each racetrack.
- Transfer one percent of the adjusted gross receipts to the county commissions of the counties where racetracks are located. (Subject to Local Powers Act)
- Transfer two percent of the adjusted gross receipts from each licensed racetrack to the governing bodies of municipalities with each county having a racetrack table games licensee. This is subject to various conditions and provisions and to be prorated according to census and Local Powers Act.
- Transfer one and one half percent of the adjusted gross receipts from each licensed racetrack to the governing bodies of municipalities in which a racetrack table games licensee is located. These municipalities shall receive an equal distribution of the total amount allocated.

Distribute the remaining amounts (net amounts) as follows:

- A. Transfer seventy six percent to the State Debt Reduction Fund which shall be used to accelerate the reduction of existing unfunded liabilities and existing bond indebtedness.
- B. Transfer four percent, divided pro-rata based on the relative adjusted gross receipts from the individual racetrack for and on behalf of all the employees of each licensed racing association, into a special fund for pension plan.
- C. Transfer ten percent to be divided into equal shares to each county commission not eligible for other distributions; counties without licensee racetracks. These funds must be used for regional jails, infrastructure or other capital improvements.
- D. Transfer ten percent to be divided and paid in equal amounts to the governing bodies of municipalities not eligible for other distributions, i.e. municipalities, without licensee racetracks. These funds must be used to pay for debt reduction in municipal police and fire pension funds and the cost of infrastructure improvement and capital improvements.

The West Virginia Code was amended in 2009 to change the distribution of monies in each successive year following the initial licensing of every racetrack licensed to offer table games:

- The commission shall retain an amount for administrative expenses not to exceed 4 percent of the gross income of each licensed table games track.
- Transfer two and one half percent of adjusted gross receipts from all thoroughbred racetracks with table funds to the special funds established by each thoroughbred racetrack for the payment of purses, the amount being divided equally among all thoroughbred racetracks and transfer two and one half percent of adjusted gross receipts from all greyhound racetracks with table games, the amount being distributed to each greyhound track.
- Transfer two percent of the adjusted gross receipts from all licensed racetracks to the Thoroughbred Development Fund (Chapter 19, Article 23, Section 13-b) and the Greyhound Breeding Development Fund (Chapter 19, Article 23, Section 10). Monies shall be prorated among the development funds for each racetrack table games licensee based upon relative adjusted receipts from each racetrack.
- Transfer two percent of the adjusted gross receipts from each licensed racetrack to the county commissions of the counties where racetracks with table games are located. To be distributed on a pro rata basis among the counties according to the relative adjusted receipts from each county's racetrack. (Subject to the Local Powers Act in which county boards of education in growth counties will receive one half of the county's receipts for the purpose of capital improvements.)
- Transfer three percent of the adjusted gross receipts from each licensed racetrack to the governing bodies of municipalities within counties where racetracks are located. This is subject to various conditions and provisions and is to be prorated according to census and Local Powers Act.
- Transfer one half of one percent of the adjusted gross receipts to the governing bodies of municipalities in which a racetrack table games licensee is located. These municipalities shall receive an equal distribution of the total amount allocated.

- **Distribute the remaining amounts as follows:**
- Transfer seventy six percent to the State Debt Reduction Fund which shall be used to accelerate the reduction of existing unfunded liabilities and existing bond indebtedness.
- Transfer four percent, divided pro-rata based on the relative adjusted gross receipts from the individual licensed racetrack for and on behalf of all the employees of each licensed racing association, into a special fund for pension plans.
- Transfer ten percent to be divided into equal shares to each county commission not eligible for other distributions, i.e. municipalities without licensee racetracks. These funds must be used for regional jails, infrastructure or other capital improvements.
- Transfer ten percent to be divided and paid in equal amounts to the governing bodies of municipalities not eligible for other distributions, i.e. municipalities without licensee racetracks. These funds must be used to pay for debt reduction in municipal police and fire pension funds and the cost of infrastructure improvement and capital improvements.
- All expenses of the commission incurred for the enforcement of Racetrack Table Games, Chapter 19, Article 22C, shall be paid from the Racetrack Table Games Fund. The commission shall transfer annually at least one hundred thousand dollars and no more than five hundred thousand dollars to the Compulsive Gambling Treatment Fund.

Historic Resort Hotel Table Games

In 2009 the legislature enacted legislation to allow video and licensed table games at historic resort hotels. In order to meet the definition of an historic resort hotel, the hotel must be registered with the United States Department of Interior and have a minimum of five hundred guest rooms under common ownership with additional recreational facilities for guests.

There is a special fund in the West Virginia Treasury entitled, "Historic Resort Hotel Fund". The lottery commission deposits thirty six percent of gross terminal income from video lottery games and thirty percent of adjusted gross receipts from table games into this fund. This fund is an interest bearing account with interest earned to be deposited in the fund. All expenses of the commission shall be paid from this fund including State Police expenditures for activities relating to the historic resort gaming facility such as background investigations and enforcement activities. The limit on the expenses is 15% or less of the receipts.

Two and one half percent of the receipts in the Historic Resort Hotel Fund are deposited to the "Historic Resort Hotel Modernization Fund". For each dollar expended by a historic resort hotel for video lottery or table gaming facility modernization improvements at the hotel and placed into service after April 1, 2011, the historic hotel shall receive \$ 1.00 in recoupment from the fund.

The balance in the Historic Resort Hotel Fund is considered net income and is distributed as follows:

- Sixty four percent to the West Virginia general revenue fund

- Nineteen percent shall be paid to the State Debt Reduction Fund established in West Virginia Code 29-22C-27.
- Three percent to the Tourism Promotion fund
- Four percent to the county in which the facility is located
- Two and one half percent to the municipality in which the facility is located
- The municipalities within the county in which the facility is located shall receive equal shares off two and one half percent
- All other county commissions in the state will receive two and one half percent divided equally (must be expended by county for regional jail expenses, infrastructure or other capital improvements)
- All other municipalities in the state will receive two and one half percent divided equally (must be expended by the municipalities for police and fire pension funds, infrastructure or other capital improvements)
- All license fees will be deposited into the Community Based Service Fund. This is a fund to be expended by the Bureau of Senior Services upon appropriation by the legislature for the purpose of enabling aged and disabled citizen to stay in their residences through community based services.

In addition to the "Historic Resort Hotel Fund" there is a "Human Resource Benefit Fund" established to provide fringe benefits for employees of historic resort hotels. The hotel must deposit seventeen percents of the adjusted gross receipts from video lottery games and five percent of the adjusted gross receipts from table games into this fund. For each dollar expended by the historic hotel for employee fringe benefits, one dollar can be recouped from the fund. The commission has the authority to audit the fund. A minimum of two audits is required each fiscal year.
